

# Tracking Patient Status: Information to Help You Stay Up to Date

## 1. Patient Summary Screen

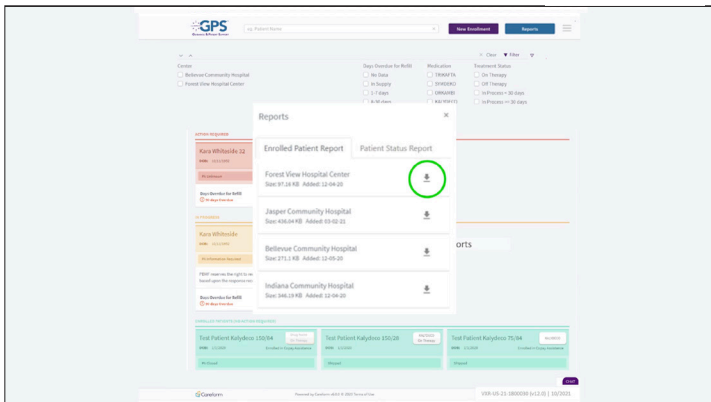

With the Vertex GPS Portal, you can keep track of your patients' recent refill information from the "Patient Summary" page.

At the top of the "Patient Details" box you can see your patients' copay assistance enrollment status and ID as well as the last shipped date and last shipped pharmacy date.

At the bottom of the "Patient Details" box is a section called **"Refill Activity."** From here, you can see their treatment status, when they started treatment, their compliance rate over the past 6 months, and the dates of their last 3 shipments.

## 2. Reports

Click the **"Reports"** button to show center reports. A window with a list of associated Enrolled Patient Reports will open.

Click the download arrow to download the Enrolled Patient Report.

We hope you find this information useful in tracking your patients' Vertex medication status.
